

Full Color RGB Flip Chip

3.2 x 1.6 x 1.1 mm
FOV $20_{1/2}$ = 70-80 degrees

NEWS

▶ RGB Flip Chip

Precise lighting with low-power RGB LEDs.

Together with our partner and manufacturer **Harvatek** we equip your application with **SMD LEDs type 1206**.

With our **B1A53 series**, your application benefits from:

- Optimum internal lens design and RGB for high quality lighting.
- Tight beam angles of 70-80 degrees for minimum scattering.
- Reverse mountability for versatile mounting options.
- Fewer secondary optics required.

The compact **3.2 x 1.6 x 1.1 mm** design allows for use in many applications ranging from input devices to personal host and industrial servers to white goods.
